

Brain Spa

"The Brain Spa is a safe place to learn about your strengths and soft spots. . . The most congruent system of living I've ever heard. An experience of learning, growing and shifting into more of who I am destined to be."

- John Mastrobattisto, D.C.

"It really works! After this weekend I have the ability to turn off my negative self limiting beliefs, whether that is in my golf game or my business game."

- Bryan Riecker, D.C.

A Fat Farm for Your Head

We all gain a few pounds of unwanted "fatty thinking" over the years and if you are willing we can help you get it off and keep it off. Unlike excess body fat you can't see "fatty thinking." That's where we come in.

It takes awareness, ability and willingness to be at the top. You bring the willingness and we will do the rest!

DCMentors' Brain Spa is a *Leadership Development System* crafted to strip away the limiting beliefs participants may bring into their personal and professional relationships and replace them with liberating ones.

For the people who want to feel better, look younger and perform better the **Brain Spa** rejuvenation process is a *Know Brainer!*

Not "more of the same", no motivational rant, no fire walking psychobabble, no brain washing, simply real talk, and real solutions. We are the '**Personal Thinking Trainers**' who have the experience, the science behind the process and the passion to get you to "fit -think."

Self-View, Your Image of You

It's your ability to realize and appreciate your own unique self-worth. This internal feeling of value allows you to appreciate yourself based on who you know yourself to be inside, not what you do, what role you perform or what success you attain.

Affluence

"Money ranks with love as man's greatest joy. And it ranks with death as his greatest source of anxiety." -John Kenneth Galbraith

Awareness is the first step towards changing your relationship with money. By changing your perception of it your emotions and behavior gradually shift from anxiety to eagerness, from money as a source of stress, to its becoming a tool of freedom.

Money is a relationship. It is energy in a frozen form. To have it and enjoy it requires a balanced attitude and financial aptitude.

The Seven Essentials of Leadership

Leaders are people who others follow. The most effective leaders learn to care about their followers. Principled leaders have the discipline it takes to lead and command authority.

Because you deserve to have serious fun, join us at Squaw Valley, USA - the training ground for world class performances, where the breath taking natural beauty of Lake Tahoe and the inspiring peaks of the Sierra's provides a perfect setting to relax and learn.
